

NOMAD CHAIR

The Nomad Chair is a modern design with timeless features and rustic character. The hooped frame and petal-shaped seat take inspiration from the orchids and flowers of the forest. As comfortable on the mind as it is on the body. Superior natural materials (leather, wood, wool and hammered bronze) make it a tactile treat. The hand detailing is highly intricate and the finishing meticulous.

The chair is extended into a high dining option with a bronze stretcher.

Shown in Aged Bark leather and Thunder Merino sheepskin.
