

COSMOPOLITAN

The Cosmopolitan is a further exploration of the bronze-and-Palmwood theme of the best-selling Vérité. A reimagining of the Pharaoh's sofa, which seems to float above the floor.

No compromises are made on luxury or comfort. Each handmade item of furniture is a unique artwork and heirloom.

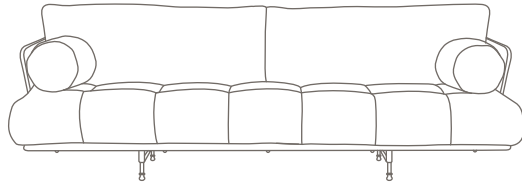

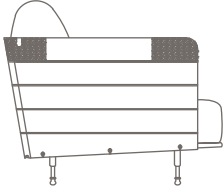

The 4-seater is supported by a steel frame and cushioned in latex and duck feathers. It is upholstered in 2.5mm full-grained leather from Italy. The hand detailing is highly intricate and the finishing meticulous.

Shown in Vérité Ochre nubuck leather.
