

SCARAB

The Scarab might be a selfish piece: it is designed to seat 3 people but may be taken over by one! A luxurious, tall and deep sofa – created as much for lying down as sitting. A new twist on the traditional Dutch Chesterfield sofa.

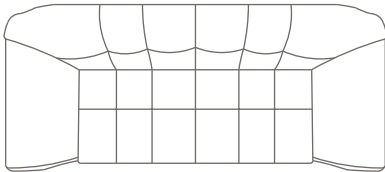

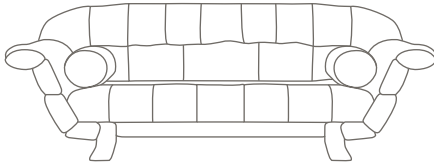

The sofa is covered in a soft patchwork blanket of Merino wool from Australia. Giving it a sensual, silken touch. Pacific Green presents the Scarab as a stunning showcase of wool as an upholstery material. Warm in winter and cool in summer.

The sofa is cushioned with latex and supported by a sprung seat. The front panel is hand-carved from Palmwood.

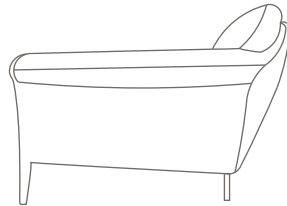

Shown in Thunder Merino wool.
